Renewed Petition Under 37 CFR 1. 137(a)

ATTENTION: Andrea Smith,

Dear Andrea,

In reference to the above application (US #10/633,359), I do claim priority to application #2430936 filed in Canada June 10th 2003, application #2,311,269 filed in Canada June 20th 2000, application #2,584,301, filed in Canada 2007/04/10, for the benefit of a prior-filed application under 35 U.S.C. 119(e) or under 35 U.S.C. 120, 121, or 365(c) is acknowledged. My Agent advised me not to maintain my applications. I never thought it was a good idea then or now, yet I complied after haggling with him for a while, of course that's why I hired his services. I would hereby like to amend my claims with the enclosed; as I feel that these would provide me with a broader scope of protection for my invention. I am also including a full document with numbered pages. (11Pages total), 2 Pages of Canadian filing data added. Please discard documents that I may have sent that are not useful to further the application. Please; also discard documents bearing my Date of Birth.
